SUMMARY

Data Analyst with 2.8+ years of experience in data analysis, business reporting, dashboard development, and reporting automation across Automotive, Smart City, and QSR domains. Skilled in Power BI, SQL, Python (Pandas), DAX, Power Query, and Advanced Excel, with hands-on experience analyzing sales, operations, quality, and performance KPIs. Delivered measurable improvements including a 72% reduction in registration pendency, 35% reduction in manual reporting effort, and 20% reduction in annotation errors. Currently pursuing an MBA in Business Analytics.

SKILLS

Analytics & BI: Power BI, DAX, Power Query, SQL, Python (Pandas), Tableau

Excel & Reporting: Advanced Excel, Power Pivot, Pivot Tables, XLOOKUP, MIS Reporting, KPI Reporting

Analysis: Data Cleaning, Data Validation, Root Cause Analysis, Sales Analysis, Market Share Analysis, Performance Analysis

Business: Dashboard Development, Reporting Automation, Stakeholder Reporting, Operational Analytics

EXPERIENCE

MIS Executive — Nippon Motor Corporation Pvt. Ltd., Kerala

Nov 2025 – Present

- Centralized daily order listing and Toyota market share reporting across 3 dealerships using RTO registration data in Excel and Power BI, replacing fragmented manual tracking with a consistent reporting source.
- Built monthly enquiry-to-order conversion tracking, achieving visibility into a 38% conversion rate by sales officer and highlighting performance and pending-order bottlenecks.
- Developed weekly KPI reports covering registration pendency and test-drive activity; delay flagging helped reduce pending registrations from 58 to 16 cases — a 72% reduction.

Junior Lead – Data Analysis — Cogniphi Technologies Pvt. Ltd., Kerala

Nov 2023 – Apr 2025

- Automated daily and weekly annotation reporting using Python scripts and Excel automation, reducing manual reporting effort by 35%.
- Led a 10-member Smart City annotation team, introducing process improvements and targeted training that reduced annotation errors by 20%.
- Built Power BI dashboards with DAX measures to monitor annotation quality, throughput, and team performance for Smart City stakeholders.

Data Analyst — Cogniphi Technologies Pvt. Ltd., Kerala

Apr 2023 – Oct 2023

- Analyzed QSR customer journey and drive-through data and developed dashboards that supported engineering and testing teams in evaluating and refining AI models.

PORTFOLIO PROJECTS

Marketing ROI Dashboard — *Power BI, Excel, DAX*

- Analyzed campaign spend, conversions, revenue, and ROI using Power BI and Excel to build a management-focused marketing performance dashboard.
- Compared campaign performance and identified mobile campaigns generating 2.1× ROI despite receiving 40% of marketing spend, highlighting a potential 15% budget-reallocation opportunity.

Retail Sales Root Cause Dashboard — *Power BI, Excel, DAX*

- Analyzed sales, revenue, profit, discounting, and delivery performance to develop a KPI dashboard for monitoring retail business performance.
- Performed root-cause analysis and identified 21%+ discounting in the Technology category and delayed deliveries as key factors associated with declining profitability in the South region after July 2024.

EDUCATION

MBA in Business Analytics (Ongoing) — Amrita Vishwa Vidyapeetham

B.Tech in Computer Science — Glocal University
